Prompt:

Given what you just heard and saw over the last 10 seconds, is your gaze about to shift onto a object and if so, which one?

Model Output @ t_2

<think> The speaker mentions two items. The backpack is in view. While the "clay thing" is most recently being referred to. My gaze needs to settle on the clay pot which is the brown clay thing present in the scene.

<shift> YES
<object> clay pot
